

## Statement of Qualifications

for

**Clint Daniels**

I am a longtime resident of Mission Hills. My children attend Grant Elementary in Mission Hills where I **currently serve as the Treasurer of the Grant School Community Foundation**. The foundation raises money through events like the Mission Hills 5K to fund STEM programs at Grant Elementary.

My **background is as an Urban Planner**. For nearly two decades, I've focused on helping cities understand travel behavior and land use development.

I moved to Mission Hills, because I enjoy being able to walk my kids to school, walking to our neighborhood restaurants and businesses, and the historical charm of the community. Our Uptown neighborhoods were some of the first streetcar suburbs in San Diego. **Most importantly, I love Uptown, San Diego, and all cities, because they continue to evolve, grow, and take on the personality of the current residents.**

I am running for the Uptown Planners to ensure our neighborhood grows in a safe and sustainable way. I want our children to be safe when they walk to school, and our neighbors to feel safe biking in the community. **I support providing essential infrastructure to keep our children and neighbors safe when they are walking and biking.**

We are not building enough housing in our community or city to sustain our population growth. Many of our kids will not be able to afford Uptown unless we confront our housing crisis now. **I support more housing along our major transportation and transit corridors** with high quality design that preserves the heritage of our communities.

If elected to the Board I will evaluate all projects in a fair and comprehensive manner and work to assure that new development adequately addresses our housing and infrastructure needs.
