

Mat Wahlstrom

I am co-owner of a member business of the Hillcrest Business Association, and founder of [Rescue Hillcrest](#), a group dedicated to smart growth and community benefit advocacy. My special concerns are code enforcement, public space projects, and historic preservation.

The topics and issues that come before Uptown Planners range from major to mundane. As a current board member, I know our job is to listen to all sides, and then make our decisions based on what the community thinks is best, rather than what serves an agenda of special interests.

I hope to have the opportunity to continue to serve you in advocating for affordable housing, the Normal Street Linear Park, safety services, and the protections provided in the new Uptown Community Plan.
